November 7-9, 2025|Chengdu, China

CECCC

2025

2025 7th International
Communication Engineering and
Cloud Computing Conference

Communication Engineering and Cloud Computing are two rapidly evolving fields that are driving innovation and opening up new avenues for research and development. Communication Engineering deals with designing and implementing communication systems and networks that enable seamless data transmission and exchange, while Cloud Computing focuses on the provision of ondemand computing resources and services over the internet

## MPORTANT DEADLINE

Submission Deadline: June 15, 2025 Notification Date: July 15, 2025

Author's Registration: August 5, 2025 Conference Dates: November 7-9, 2025

## **Publication & Submission**

All submitted articles should report original, previously unpublished research results, experimental or theoretical. CONFERENCE PROCEEDINGS of CECCC2025 with all accepted papers will be published by Conference Publishing Services as well as submitted to the IEEE Xplore Digital Library, IEEE Computer Society Digital Library, and reference databases of all major referencing indices including El Compendex, Scopus, and SCI.

<u>Conference Submission System</u>
<u>Download Paper Template (MS WORD)</u>
<u>Download Paper Template (Latex)</u>

## **▶** Communication Engineering

- · Cognitive Radio and Cognitive Networks
- High Performance Networks and Protocols
- MEMS Technologies for Communications
- MIMO Communications in Computer Networks
- Network Simulation and Emulation
- Optical Networks and Systems
- QoS and Resource Management
- RFID Networks and Protocols

## **►** Cloud Computing

Future Internet and Next-Generation Networking Architectures

Topics of interest for this track include, but are not limited to:

- · Internet measurement, modeling, and visualization
- Software Defined Networks and Network Programming
- Optical Networks to Support Cloud Computing
- Cloud Computing and Data Center Systems
- · Cloud, Cluster, Grid and P2P Computing
- Big Data, Data Management and Analytics
- Computational Intelligence
- Distributed OS and Middleware

For more topics, please visit https://www.ceccc.org/cfp.html.
